

STEC

Holiday Program for Kids

10 – 14 December

10 December, 9.00-10.30 Age: 6+
DEEP SEA DIORAMA

Use your imagination and design your very own ocean scene in a box. Bring your diorama to life by adding some paper fish.

Cost: 10.00 Rand

11 December, 9.00-10.00, Age 6+
WIND PROPELLER CAR

Who says that toys need to be expensive. Find out in this fun workshop on how to make a wind propeller car out of straws.

Cost: 5.00 Rand

12 December, 9.00-10.00, Grade 4+
KITCHEN DETECTIVES

The chef has got his ingredients muddled - can you help him, with a little bit of science, to sort out which is which?

Cost: 5.00 Rand

13 December, 9.00-10.00, Grade 3+
BOTTLE JET DRAG RACER

Fit a two-litre plastic bottle with wheels and a tyre valve, and after you make a pin-hole nozzle, hand pump the bottle as hard as you can, open the nozzle, and watch the bottle jet off across the floor faster than you can run! Or race against other bottle-jets.

Cost: 10.00 Rand

14 December, 9.00-10.00, Age 6+
MAKE YOUR OWN FOSSIL

Have fun making your own fossil and learning how scientists use them to unlock secrets of the past, including those that provide a remarkable insight into life in the age of dinosaurs.

Cost: 5.00 Rand

To book a workshop contact the
Science and Technology Education Centre
(031-260 2524 or stec@ukzn.ac.za)

Please note that the Science Centre is closed from the 26-30 November.

For directions to the Science Centre visit our website
