

## Holiday Program for Kids 17 – 20 December

17 December, 9.00-10.30 Age: 6+

### HOW TO TURN A LIQUID INTO ICE-CREAM

Learn more about the exciting world of solids, liquids and gases. And what we need to turn a liquid into a solid, or shall I rather say a liquid into ice cream?

**Cost: 5.00 Rand**

18 December, 9.00-10.00, Age 6+

### LAUNCH YOUR OWN ROCKET

Do you dream about travelling into space? Why not build your own rocket and launch it outside the Science Centre.

**Cost: 5.00 Rand**

19 December, 9.00-10.00, Age 6+

### MAKING A BOUNCING BALL

Everybody knows the fancy bouncing balls that you can buy in the shops. Have you ever made one? If not, make your own bouncy ball using many ingredients you probably already have in your home.

**Cost: 5.00 Rand**

20 December, 9.00-10.00, Grade 3+

### PRINTING USING SUN SENSITIVE PAPER

Make amazing white on blue prints with your favorite objects! Just place leaves, keys, shells, or whatever you choose on the photosensitive paper and place it in the sun.

**Cost: 10.00 Rand**

To book a workshop contact the  
Science and Technology Education Centre  
(031-260 2524 or [stec@ukzn.ac.za](mailto:stec@ukzn.ac.za))

**Please note that the Science Centre is closed from the  
25-29 November.**

For directions to the Science Centre visit our website [www.stec.ukzn.ac.za](http://www.stec.ukzn.ac.za)
